INTRODUCTION

The MX-5004MZ2F 4x2 HDMI 2.0a Quad-View Video Processor with 4K2K60 4:4:4 provides the most flexible and cost effective solution in the market to route ultra-high definition video source from any of the four UHD HDMI sources to the remote display at the same time. This solution is also well suited for use in digital signage, conference room presentation systems or other similar settings or applications.

With up to 4K2K60 4:4:4 output resolution, users can display the mixed video with improved presentation quality. In the meantime, the unit can be controlled thru the popular serial port and Ethernet port to provide the most flexible control way to fit into any applications.

FEATURES

- 4x HDMI inputs and 2x HDMI outputs
- Input resolutions support from 640x480 to 4096x2160@60Hz (4:4:4 8bits), interlaced or progressive .
- Output resolutions support up to 4K2K@60Hz (4:4:4 8bits) .
- Adjustable size & position through software and Cloud .
- Supports PIP, PBP, POP, full screen & guad-view display
- HDCP 1.4/2.2 compliant
- Firmware upgradable to support of new features and technology enhancements •
- Titles, borders and colored backgrounds .
- Supports Background picture & logo update .
- Resize, position, zoom & pan and blend output video .
- Supports seamless, fade-in-&-out, wipe and dissolve switching on full screen mode
- Pure unaltered uncompressed 7.1ch digital HDMI
- Software control through RS-232 and Ethernet .
- Supports IR remote and front panel control .
- Supports Cloud Control * .

* Cloud support is thru an encrypted communication to provide the best private protection when using MX-5004MZ2F

PACKAGE CONTENTS

- 1 x MX-5004MZ2F ٠
- 1 x DC 12V 5A

(!)

- 1 x Installation software CD
- 1 x User Manual
- 1 x IR Remote control (28 keys)
- 1 x IR Receiving cable ٠

SPECIFICATIONS

Model Name MX-500/M72E					
Technical	Ndille	MA-3004MZZF			
Role of usage		Multiplexer / video processor			
Background pi	cture update	Yes			
HDCP compliance		1.4 / 2.2			
HDMI complia	nce	HDMI 2.0a			
Video bandwid	th	HDMI [600MHz [18Gbps]			
Output Video S	Support	Up to 4K2K@60 (4:4:4 8bits)			
Input Video Su	pport	Up to 4K2K@60 (4:4:4 8bits)			
Video Format S	Support	HDMI 2.0			
Audio support		Bypass			
Control		RS-232/ Ethernet/ IR/ Front panel Control/ Cloud			
Embedded vide	eo mixer	Yes			
Input TMDS sig	gnal	1.2 Volts [peak to peak]			
ESD protection	ı	Human body model — ±15kV [air-gap discharge] & ±8kV [contact discharge]			
Input		4x HDMI + 1xRS-232 + 1x RJ-45(Ethernet) + 1x 3.5mm			
Output		2x HDMI + 2x RCA			
HDMI connect	or	Type A [19-pin female]			
RS-232 connec	ctor	DE-9 [9-pin D-sub female]			
RJ-45 connect	or	WE/SS 8P8C			
Mechanical					
Housing		Metal enclosure			
	Model	390 x 248 x 44mm [1'3" x 9.8" x 1.7"]			
Dimensions	Package	526 x 318 x 156mm [1'7" x 12.5" x 6.1"]			
	Carton	543 x 335 x 344mm [1'8" x 13.2" x 1'1"]			
	Model	2.2 kg [5 lbs]			
Weight	Package	3.3 kg [7.3 lbs]			
Fixedness		Wall-mounting case			
Power supply		12V 5A DC			
Power consum	nption	22 Watt [max]			
Operation tem	perature	0~40°C [32~104°F]			
Storage tempe	erature	-20~60°C [-4~140°F]			
Relative humidity		20~90% RH [no condensation]			

PANEL DESCRIPTIONS

- 1. Windows Source Selection A-D: Window A-D source selection (from the left to the right is D, C, B, A)
- 2. Presets: User preset 2 and user preset 1
- **3. Quad:** Fast switch to quad-view mode
- 4. Full Screen: Switch Window in full scree mode
- 5. IR SENSOR: IR sensor for receiving the IR commands from IR remote
- 6. OSD Button
- 7. Power switch: Power On/Off
- 8. +12V DC: 12V DC power jack
- 9. IR Receiver: 3.5mm socket for plugging in the extension cable of IR receiver
- 10. SOURCE 1-4: HDMI inputs
- 11. Stereo audio output L/R
- 12. OUTPUT 1-2: HDMI outputs*
- 13. RS-232: RS-232 control port
- 14. Ethernet: Ethernet control port
- 15. Micro USB: For F/W update

() * The MX-5004MZ2F is able to automatically downscale on output 2 according to EDID of connected display equipment.

CONNECTION DIAGRAM

HARDWARE INSTALLATION

MX-5004MZ2F as master

- 1. Connect all sources to HDMI Inputs on the MX-5004MZ2F.
- 2. Connect the display to HDMI Output on the MX-5004MZ2F.
- 3. Connect the +12V 5A DC power supply to the MX-5004MZ2F.

OPERATION APPROACH

Method A: IR Remote Control

Button	Function
POWER	Power on/off the device
LOCK	Lock/unlock the device
	Arrow button (up)
MENU	OSD menu
AUDIO	Select audio sources
►	Arrow button (right)
OK	Trigger the setting
<	Arrow button (left)
MUTE	Turn off the audio
BACK	Back to previous page of OSD menu
▼	Arrow button (down)
EXIT	Exit from the menus
F1	Reserved
720P	Switch output resolution to 720p 60Hz
1080P	Switch output resolution to 1080p 60Hz
4K2K	Switch output resolution to 4K2K 60Hz
QUAD	Fast switch to quad-view mode
FULL	Fast switch to full screen mode
Background	To set up the background picture of window
LABEL	Window label ON/OFF
D	Select source D to be the input source
С	Select source C to be the input source
В	Select source B to be the input source
А	Select source A to be the input source
P4	User preset 4
P3	User preset 3
P2	User preset 2
P1	User preset 1

Method B: Software Control through Micro-USB port

1. System Requirement

(1) OS Information: MS Win XP/7/8/10 (2) Baud rates: 115200 (3) Software size: 10 MB (4) Minimum RAM requirement: 256 MB

2. Control Interface

When clicking on the executable file, the following dialog will pop-up (under Microsoft Windows 7, please run as administrator)

RS-232 serial Mode: Use RS-232 to connect the port on device and computer. Select correct COM port and click the OK button.

Ethernet Mode: Enter the IP address of the device and click the OK button.

0	RS232							
	СОМ	Port:	0	OM3	ł	-		
0	Etherne	t						
	TP-	192		168	 1	s.	145	

After the software control setting is accomplished, it will enter directly to control interface.

1. Connection Status:

Show the connect information and status. If users use RS-232 serial Mode to connect device, the graph is 📰 . In contrast, the graph of Ethernet is 🖬 . In addition, if users would link to change the control method, uses can click on the 📟 button to change.

2. Output Settings

In this section, users can set up the coordinate for inputs, the source of window A~D, output resolution, layout setting (PAP or full screen) and switch mode.

(1) Source Selection

For each display window, you can assign arbitrary video source here.

Source Sel	ection		
Window A:	Source 1	•	
Window B:	Source 2	•	
Window C:	Source 3	•	
Window D:	Source 4	•	

(2) Quick Selection

We provide 9 default modes, 8 custom modes and 4 switching effects (Seamless, Fade in/out, Dissolve, Wipe) for user to select.

Quick Selection

(3) Output Resolution

Set the output resolution.

Output Selection					
Output Resolution:	1920 x 1080 @60Hz 🗸				
	3840 x 2160 @60Hz 3840 x 2160 @50Hz				
	1920 x 1080 @60H2 1920 x 1080 @50Hz				
	1280 x 720 @60Hz 1280 x 720 @50Hz				
	720 x 576 @50Hz 720 x 480 @60Hz				

(4) Save Layout

We provide 8 custom layout space for users to save the frequently used scenarios into the flash memory.

(5) Display Panel

In the left part of control interface, user can customize the display mode thru control. The different colors of frame represent the different input windows. The information of coordinate shows the position of input source screen. In addition, we provide display ratio for users to set the display panel sizes. If you want to change window layer, please drag window icon in Layer Control section.

WARRANTY

The SELLER warrants the **MX-5004MZ2F 4x2 HDMI 2.0a Quad-View Video Processor with 4K2K60 4:4:4** free from defects in the material and workmanship for 1 year from the date of purchase from the SELLER or an authorized dealer. Should this product fail to be in good working order within 1 year warranty period, The SELLER, at its option, repair or replace the unit, provided that the unit has not been subjected to accident, disaster, abuse or any unauthorized modifications including static discharge and power surge. This warranty is offered by the SELLER for its BUYER with direct transaction only. This warranty is void if the warranty seal on the metal housing is broken.

Unit that fails under conditions other than those covered will be repaired at the current price of parts and labor in effect at the time of repair. Such repairs are warranted for 90 days from the day of reshipment to the BUYER. If the unit is delivered by mail, customers agree to insure the unit or assume the risk of loss or damage in transit. Under no circumstances will a unit be accepted without a return authorization number.

The warranty is in lieu of all other warranties expressed or implied, including without limitations, any other implied warranty or fitness or merchantability for any particular purpose, all of which are expressly disclaimed.

Proof of sale may be required in order to claim warranty. Customers outside Taiwan are responsible for shipping charges to and from the SELLER. Cables and power adapters are limited to a 30 day warranty and must be free from any markings, scratches, and neatly coiled.

The content of this manual has been carefully checked and is believed to be accurate. However, The SELLER assumes no responsibility for any inaccuracies that may be contained in this manual. The SELLER will NOT be liable for direct, indirect, incidental, special, or consequential damages resulting from any defect or omission in this manual, even if advised of the possibility of such damages. **Also, the technical information contained herein regarding the MX-5004MZ2F features and specifications is subject to change without further notice.**
